

FIZZBOT

FULLY AUTOMATED BEVERAGE DISPENSER

OPERATION

FIZZBOT transforms beverage service with its fully automated system, producing carbonated and noncarbonated drinks from order to sealed cup. Built for speed and precision, it reduces labor, increases output, and streamlines operations through direct POS integration. Integrated cup sealing makes drinks delivery-ready, while IoT connectivity enables quick updates to keep stores current with drink trends and seasonal demand.

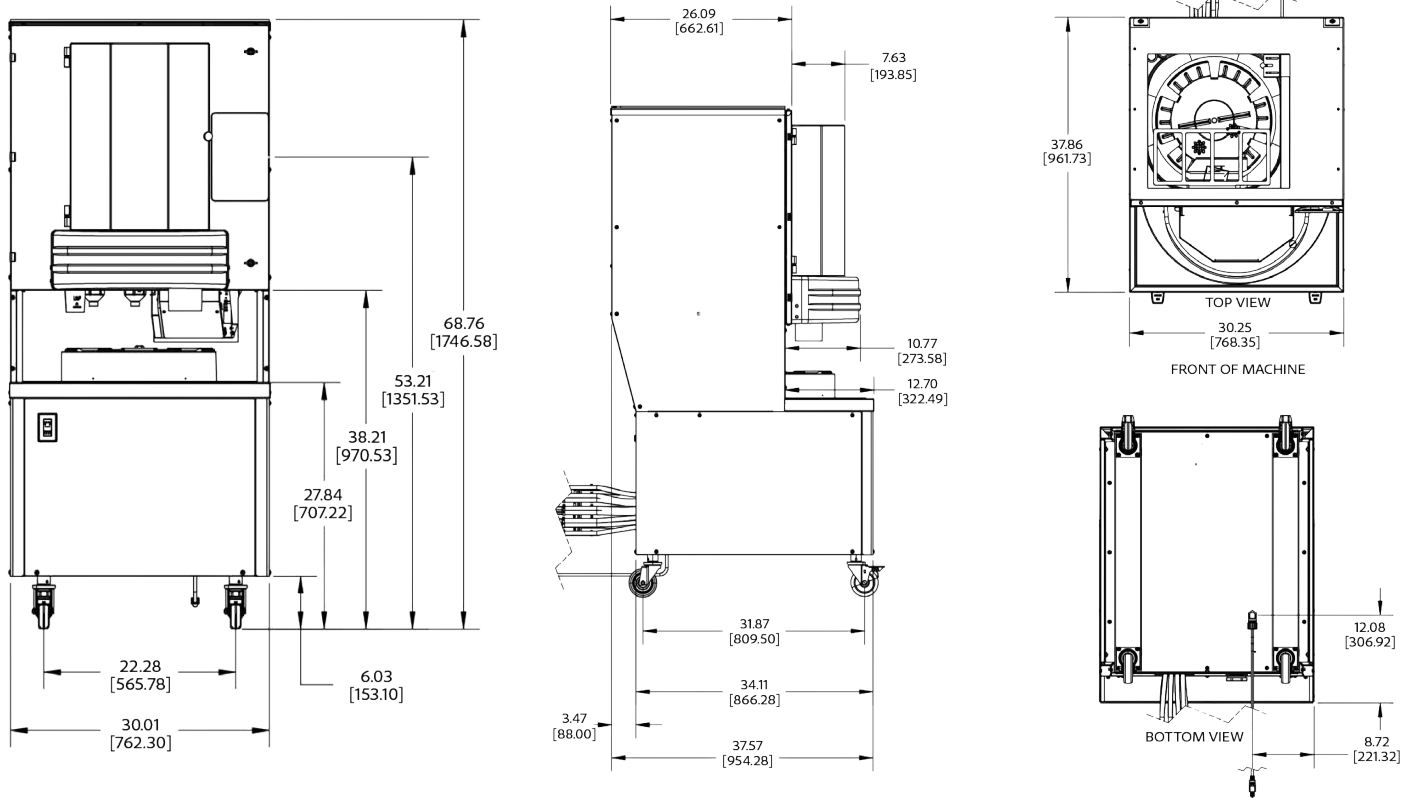

FEATURES

- Fully automated drink production: cup drop, ice dispense, drink dispense and lidding.
- Direct POS integration automatically sends orders to machine and supports mobile orders and third-party delivery apps.
- Supports up to three cup sizes.
- Produces up to 450 drinks per hour, with 8-10 seconds between drinks.
- Supports up to 28 flavors, including syrups, concentrates and high-ratio flavors.
- Seals cups using an integrated cup sealer that prints order on each seal.
- IoT connectivity allows operators to update and customize menus and recipes instantly.
- Constant-flow valve (CFV) technology eliminates brixing and manual calibration.
- 10-inch touchscreen for order management and system monitoring.

TECHNOLOGY | IoT Integration

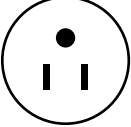

- Remote, automatic brixing for each flavor
- Special mix recipes
- Instantly roll out LTOs and seasonal offerings
- Monitor and control inventory
- Monitor sales trends and product popularity, with data sortable by date, store and time.
- Remote dashboard for service diagnostics and analytics

DIMENSIONS

Width	30"	762 mm
Depth	37.57"	954.28 mm
Height	68.76"	1,746.5 mm
Weight	700 lb	317.52 kg
Floor Clearance	6"	152.4 mm

ELECTRICAL SPECIFICATIONS

Voltage	120 V	 NEMA 5-15P
Frequency	60 Hz	
Current	15 A	
Wattage	1,800 W	
Phase	1 ph	
Connectivity	Ethernet or wireless	

See the electrical chart for the proper electrical requirements. Manufactured for cord connection. Consult your local electrician for cord and receptacle specifications as required by local codes.

Ice machine (sold separately) requires its own dedicated electrical connection.

ADDITIONAL SPECIFICATIONS

Syrup Flow Rate	3.0 oz/sec
Ice Bin Capacity	70 lb
Water Supply Pressure	50-60 psi at pump
Screen Aspect Ratio	10:16
CO ₂	90-110 psi bulk to secondary CO ₂ regulator

SHIPPING

Width	48"	1,219.2 mm
Depth	48"	1,219.2 mm
Height	80"	2,032 mm
Weight	756 lb	343 kg
